Profile

A fast learner who is able to pick things up fast. Interested in and self-motivated to learn cutting edge technology. A team player with a can-do attitude. A problem solver and able to work under stress.

A full-stack web developer with a keen interest in technology. I did not go to University as the learning environment did not suit me, but I am looking for opportunities to work with engaging mentors and projects in place of formal-education.

Skills

Programming Languages

Experienced in Ruby, Golang, Typescript, Familiar with Java, Python, C#, Kotlin, Currently learning Haskell

Web Development

Familiar with concepts like HTTP, REST, JSON, CORS etc. Comfortable using front end frameworks like React JS & Vue JS

Databases

Have experience working with MySQL, Postgresql, Redis, Mongodb

Tools

Have experience working with Circle CI, Bitbucket Pipeline, Docker, Jira, Terraform

Interest

Particularly interested in Functional Programming, Mathematical Logic, Programming Language Theory (Type Theory, Proof Assistant)
